5th International Symposium on Innovative Approaches in Smart Technologies

28-29 May 2022, Turkey (online)

TOPICS

A-Engineering

- Aeronautics Technologies
- Automation and Control Technologies
- Biomedical Technologies
- Civil Engineering
- Cognitive Systems
- Communication Networks
- Computer Science
- Construction Technologies
- Electrical & Electronics Technologies
- Energy Systems and Energy Management
- Environmental Engineering
- Food Technology
- Forestry
- Geology and Geophysics Engineering
- Industrial Engineering
- Information Security
- Mechanic, Mechatronics and Robotics Systems
- Nanotechnology and Material Sciences
- Nano and Micro-Electro-Mechanical Systems
- Software & Hardware Technologies

B-Architecture and Planning

- Architecture
- Graphic Design
- Interior Architecture
- Landscape Design
- Landscape Planning
- Rural/Urban Planning

C-Science

- Astronomy and Space Science
- Mathematics and Statistics
- Molecular Biology and Genetics
- Physics
